STORY Originating from the UP, I, with my wife Kerin, have owned Noble since 2004. After operating it for many years as a diner, we decided in 2015 to take it in a different direction by aligning the way we eat personally with the food we serve professionally.

Noble is committed to 'clean' food. This means the food we serve will be free from artificial colors & flavors, MSG, high fructose corn syrup, and artificial nitrates. Removing unnecessary ingredients, along with purchasing high quality products (organic chicken, antibiotic free beef...) and making most menu items from scratch has allowed us to be proud of the food we serve. Noble also strives to be a welcoming destination for allergy concerned guest.

To learn more, go to eatnoble.com or like us on facebook.com/eatnoble

Thank you for allowing us to serve you. We are very grateful for our guests and it's our desire to offer you food you can feel good about eating in a comfortable environment.

- Andrew, Kerin & the Noble Staff.
